ABOUT DR JOSHUA LOH

LANGUAGES / DIALECTS SPOKEN: ENGLISH + MANDARIN

Dr Joshua Loh is the Medical Director at Capital Heart Centre. He is an experienced Senior Consultant Interventional Cardiologist with over 20 years of clinical experience.

EDUCATION AND TRAINING

Dr Joshua Loh graduated with Bachelor of Medicine and Surgery degrees from the National University of Singapore (NUS). He was conferred the Master of Medicine in Internal Medicine from NUS and the Royal College of Physicians, UK membership. He completed his specialist training in Internal Medicine and Cardiology at National University Hospital.

Dr Loh was awarded the Academic Medicine Development Award and completed two years of advanced fellowship training in Interventional Cardiology and Research at the MedStar Washington Hospital Centre, DC, USA. He trained with pioneers in the field and gained extensive experience in complex procedures using the latest technology while appraising the latest research evidence.

CLINICAL EXPERTISE

Before his private practice, Dr Joshua Loh spent two decades in public service. He was a Senior Consultant Cardiologist at the National University Heart Centre Singapore, and Visiting Consultant at Ng Teng Fong General Hospital.

Dr Loh is highly experienced in using the latest technologies and procedures to treat complex coronary artery disease - from coronary physiology and imaging, calcified vessel treatment with atherectomy and lithotripsy, to the use of latest generation drug-coated balloons, bioresorbable and drug-eluting stents.

He performed over 5,000 coronary procedures and pioneered invasive Percutaneous Pulmonary Thrombectomy, starting the service at the National University Hospital.

Dr Loh is also a Research Lead investigator in international

clinical trials with more than 80 scientific publications in renowned medical journals related to percutaneous coronary intervention (angioplasty), acute myocardial infarction (heart attack), and evaluating new technologies in angioplasty (stenting). He is regularly invited to present at international scientific meetings.

MEDICAL TEACHING

Beyond his clinical work, Dr Loh is also passionate about medical education and holds the appointment of Assistant Professor, Yong Loo Lin School of Medicine, NUS. He conducts clinical teaching to medical students and doctors undergoing internal medical and cardiology training, and is an examiner in the final MBBS examination for graduating medical students held by NUS.

He has trained many specialist doctors from Singapore and abroad in Interventional Cardiology. He is a key opinion leader, regularly invited to chair, give lectures, and perform live case demonstrations in international cardiology meetings. Dr Loh is a regional case proctor for complex coronary interventions and has performed teaching cases in Asia.

CARDIOLOGY SOCIETY INVOLVEMENT

Dr Joshua Loh is an active member of the local and international cardiology societies. He was the Organising Chair for the Singapore Cardiac Society's Annual Scientific Meeting from 2015-2017. He holds key positions in the Singapore Cardiac Society, Chapter of Cardiologists, College of Physicians Singapore, Asian Pacific Society of Cardiology, and Asian Pacific Society of Interventional Cardiology.

ACTIVITIES AND INTERESTS

Dr Joshua Loh is an avid sportsman with a diverse interest in outdoor sports. He was a competitive school athlete, and now does regular road- and trail running to keep fit. He enjoys reading medical literature, current affairs, non-fiction, and fiction genres.

CAPITAL HEART CENTRE

CONDITIONS AND SERVICES

NON-INVASIVE CARDIAC INVESTIGATIONS

- Electrocardiography (ECG)
- Ambulatory ECG Monitoring (Holter)
- Ambulatory BP Monitoring (ABP)
- Exercise Stress Treadmill Test (TMX)
- Transthoracic Echocardiography (TTE)
 - Stress Echocardiography
 - CT Coronary Angiography
- Coronary Calcium Scan (Heart Scan)
- Nuclear Myocardial Perfusion Scan
- Cardiac MRI

INVASIVE CARDIAC INVESTIGATIONS AND TREATMENTS

- Coronary Angiography (Cardiac Catheterisation)
- Coronary Physiology and Imaging Study
- Coronary Angioplasty/ Stenting
